Professional Summary

Ingenious and determined mechanical maintenance specialist with over 4 years of experience in several sectors. Eager to use and implement first-class maintenance skills to provide the system safety with experience in asset management and analysis methods.

Work Experience

Senior Specialist Engineer

Mar 2022 - Present

BEKO, Ankara – TURKEY

- Achieved 5% increase electrical energy efficiency procured leak detection service on air pressure systems all over the plant by using 6 sigma.
- Implemented new CMMS onto maintenance strategy to track reactive maintenance records that provides making RCA and create planned maintenance by being supplied all the requirements all the year round.
- Carrying out CAPEX projects that yearly provide reductions of electrical energy consumption about \$ 200K.
- Led and managed daily a maintenance team of 45 to solve faults and make improvements on the manufacturing process.

Mechanical Maintenance Engineer

Jul 2019 - Mar 2022

ERDEMIR, Zonguldak – TURKEY

- Organized asset management (creating preventive maintenance) depending on KPI data by using IBM Maximo.
- Involved 14 Kaizen projects and carried out 5S methodology on the workshops, facilities and offices.
- Planned maintenance schedule during overhauls and manage team, usage of supplied spare parts and subcontractors.
- Achieved an OPEX project with an engineer team increasing efficiency of a gas turbine by cooling the body and nearly saved \$180K for a year.

Internships – Tool Design Engineer

May 2016 – Aug 2016

TurkTraktor, Ankara – TURKEY

- Designing gauges used in production for quality assurance on Creo 3 parametric,
- Designing tools to assemble components each other,
- Providing to keep process going trouble-shooting.

Internships – Manufacturing Engineer

Feb 2016 – May 2016

Savronik, Ankara – TURKEY

Internships – Tool Design Engineer

May 2014 – Aug 2014

Mesa Imalat, Ankara – TURKEY

Education

TOBB University Graduated 2017 Degree: BSc.
Mechanical Engineering GPA:2.65

Obuda University Erasmus Programme 2015
Mechanical Engineering

Skills

- RCM
- PPM
- TPM
- 6 Sigma GB
- Hydraulics
- Pneumatics
- Catia V5
- FMEA
- Basic PLC Prog.
- P&ID
- Kaizen
- 5S

Certifications

6 Sigma Green Belt Certificate
Beko, Jun 2023

Siemens S7-1200 programing Certificate
Udemy, Sep 2022

Energy Management Certificate
Ministry of Energy, Jun 2020

Projects

- Saving electrical energy by using 6sigma
Beko, May 2023
- Increasing efficiency with gas turbine body cooling
Erdemir, Dec 2021
- Designing a new lumbar corpectomy cage for graduation project
TOBB University, May 2017
